TOPIC: HAVE YOU HEARD?

TO: ALL LADIES AND GENTLEMEN IN NEED OR HANDYMAN SERVICE

Effective immediately we are proud to offer a onetime ten per cent discount, on any services, to any customer who has adopted an animal from a local shelter.

A dog is man's best friend. How many times have we heard this? It is just as true as ever, even more so in these hard economic times....there is just no match for those sweet nonjudgmental eyes gazing into yours. In fact, whether it is a cat or a bird, or any other pet you can name, its company is just too comforting for words. This is why animals are such prized visitors at nursing homes...there is nothing like their warm, friendly little faces to bring a smile to a shut in.

The animals at a shelter have, more than likely, been rescued from an abusive home or perhaps tearfully surrendered by neighbors who just no longer can care for their pet, but love it enough to give it to a shelter hoping, just hoping , that a family better off will come and bring this animal home.

Have you ever walked through an animal shelter? I have. Immediately, from every cage in every corner of the room, dozens of hopeful little faces turn to you, each pleading with you to stop and pick him or her. What disappointment they must feel when you walk past them and don't stop to bend down and look at them or ever better say: "that's the one for me."

When you choose our handyman service, you are choosing a highly rated one with half-hour minimum on service calls, free estimates and a fully equipped service van. We are pleased to encourage you to adopt, and we look forward to serving you.

Thank you,

Greg Bloskey
